

# LE STUDIUM RESEARCH FELLOWSHIP

## Indicative application format

### IMPORTANT NOTE:

---

Please note that this document is designed to share information between the applicant and host scientist of a project. **Applications must be completed online on the LE STUDIUM website.** An application submitted by email will **NOT** be valid.

To submit an online application, you need to register on [LE STUDIUM website](#).  
After validation of your account, you will receive an email inviting you to complete your online proposal.

The online application form has the following sections:

### 1- APPLICANT'S CONTACT DETAILS

---

Give the following details concerning the applicant: first name, surname, title, birth date, nationality, laboratory, institution, professional address, phone number, email, website and specialty.

### 2- SUMMARY OF THE PROPOSAL

---

Write a summary of the proposal in English and French; it may be used in public media if the proposal is funded. If necessary the applicant should seek the assistance of the host scientist for the summary in French.

Content limited to 2000 characters for each summary.

### 3- PROPOSAL

---

-> Background, Aims: describe the specific aims of the project, including a clear statement of the hypothesis to be tested

-> Research Plan: Describe the methods and techniques to be used and research plan, including as appropriate:  
Description of the experiment design;  
Techniques to be used;  
Methods of statistical analysis;  
Strengths and weaknesses of the study design

Content limited to 40000 characters.

Indicate if the proposal involves collecting data on humans or animal experimentation.

If yes, refer to the Ethics section in the Guidelines and explain your strategy to manage and comply with the requirements for compliance with Ethics regulations in region Centre-Val de Loire and obligations to provide LE STUDIUM with the necessary Ethics Approval documents.

## 4- SIGNIFIANCE, INNOVATION AND INTERDISCIPLINARITY

---

### Significance

---

Describe the importance of the problem to be researched, the planned outcome of the research, and the potential significance of the research.

Content limited to 4000 characters.

### Innovation

---

Describe the innovative aspects in your proposal specify the contribution of the research project to the development of knowledge in the scientific field.

Content limited to 4000 characters.

### Interdisciplinary aspects

---

If relevant, show how the proposed research project connects various scientific disciplines.

Content limited to 4000 characters.

## 5- COLLABORATIONS AND INTELLECTUAL PROPERTY

---

### Collaborations between laboratories or partnerships with industry

---

If relevant, present the collaborations that you propose for your project. These partnerships can be other academic laboratories as well as with companies.

Content limited to 4000 characters.

### Intellectual property / industrial application

---

If relevant, describe the industrial applications related to your research project. If you already have defined an intellectual property strategy with your host scientist laboratory, you are invited to present it.

Content limited to 4000 characters.

## 6- CAREER

---

### Track record of the applicant

---

Highlight the career achievements of the scientific applicant and awards including a list of peer reviewed publications in the last five years. Identify up to five publications from this list relevant to this proposal EXCLUDING submitted papers. Book chapters and books should be listed separately.

Content limited to 8000 characters.

### Career development

---

Explain the relevance of the SMART LOIRE VALLEY LE STUDIUM Research Fellowship award for your career development.

Content limited to 1500 characters.

### Developing long lasting research links

---

Indicate if there is a strategy for long lasting research relations between the applicant and the host laboratory or host scientist.

Content limited to 1500 characters.

## 7- HOST LABORATORY / HOST SCIENTIST

---

Give the following details concerning the laboratory host scientist: first name, surname, title, birth date, nationality, laboratory, institution, professional address, phone number, email, website, name and email of the director of the host laboratory.

## 8- RESOURCES AND ENVIRONMENT OF THE HOST LABORATORY AVAILABLE FOR THE RESEARCH

---

### Experience of the host laboratory in the field of the proposal

---

Explain why you have chosen the host laboratory for your fellowship research project.

Content limited to 4000 characters.

### Resources and environment of the host laboratory available for the research

---

Describe the equipment, resources and environment of the host laboratory that will allow you to achieve your research goals.

*Content limited to 4000 characters.*

**LE STUDIUM** Loire Valley Institute for Advanced Studies
