

QONSIUS VENTURES ROLE BRIEF

ROLE NAME

DIGITAL PLATFORMS KEEPER

ROLE PURPOSE

Develop and maintain an ODOO-based digital platform (or equivalent) that integrates customized tools with commercial software.

IMPORTANCE IN THE BIGGER PICTURE

We believe that digitizing workflows and facilitating the interaction of human and machines roles is a critical factor in any project's success. This role is integral to everything we do.

THE EXCHANGE IN A NUTSHELL

We provide	You provide
<ul style="list-style-type: none">● A technological challenge with rich development and learning opportunities● Exposure to digital innovations and cutting-edge players● A chance to take ownership of the role and its evolution● Madrid office-based with flexible working opportunities● Spanish employment contract.	<ul style="list-style-type: none">● Digital skills: you are able to build, improve, and maintain digital platforms● Organization: you are able coordinate complex projects and communicate effectively with users, designers, developers, etc.● Ambition: you are committed both to self-development and to creating value for the company● Outreach: you want to build relevant relationships for our company

DAY TO DAY WORK MIGHT LOOK LIKE

- Analyze, benchmark and suggest digital platforms and/or vendors that might suit our business and make our methodology more efficient
- Drive the digital development process by coordinating the parties involved, including vendors and/or partners.

- Manage our digital systems to the highest standards.
- Hack or program small pieces to help the team where needed.
- Represent the company by attending relevant events.
- Participate in brainstorming meetings and ideations with colleagues.
- Help colleagues with problems that may arise.

SKILLS & EXPERIENCE WE LOOK FOR

(MUST HAVES)

- No specific work experience required.
- English fluent at working level.
- Understanding of ODOO or similar open source platforms.
- Knowledge of Python or similar object-oriented language.
- Familiar with Scrum or similar agile methodologies.

MATCH OF STYLES

Here are a few things that describe our work culture:

- Super-curious builders: We strive to understand theories and concepts, then transform that understanding into concrete things. We learn from doing. Understanding begins with study and comes to fruition when we build things.
- Open & honest: No politics, personal sniping, or power struggles. We encourage complete honesty and constructive criticism.
- Committed + responsible: Do what you say. Deliver on your promises. The team counts on you so please, no BS!
- Down-to-Earth: Have a humble, learner's mindset, and focus on the task at hand.
